

EQUINOX RANGE Liaisons Dangereuses

GRAPE VARIETAL

100% Malbec

TERROIR

Selection of different plots from Organic vineyards, on Kimmeridgian limestone soils and third Mindel Terrace.

WINEMAKING

Manual harvest, with grapes sorted in the vineyard. The harvest is 100% destemmed, then macerates for twenty days. Produced from indigenous yeasts, the "Liaisons Dangereuses" cuvée sees no input during the entire winemaking process, no added sulfites neither. The quality of the grapes ensures the stability of the wine over time. "Liaisons Dangereuses" is made without clarification, which happens naturally during the ageing process (100% concrete vat).

TASTING NOTES

The "Liaisons Dangereuses" cuvée is born from our desire to offer a light wine, a bottle into which you would like to bite. This fruit driven wine is fresh. Its voluptuous tannins support aromas of ripe, sunny red fruits. The wine thus reveals itself harmoniously in the balance of its aromatic richness, its silkiness and tonic texture.

VIGNERON

This wine was created in partnership with Fabien Jouves, "the golden generation of Cahors". Having taken over the family estate of 20 hectares in 2006, this formidable vigneron is located on the highest hills of Cahors. The domain, Mas del Périé, is ECOCERT, DEMETER and BIODYVIN certified. The whole winemaking process happens without oenological input, the wines are neither fined nor filtered. Fabien takes particular care in producing quality wines: easy-drinking wines up to his majestic single vineyard wines from Cahors.
